

## **VOLUNTEER OPPORTUNITY - CLC COMMITTEE MEMBER**

### **(NWMO – Community Liaison Committee)**

The Nuclear Waste Management Organization's recommendation of Adaptive Phase Management has been selected by the Government of Canada as the approach to be used in site selection for the long-term care of spent nuclear fuel. Part of this approach involves the 'Learn More' program whereby interested communities can engage and examine key aspects of the overall project in greater detail.

The Township of Manitowadge is seeking to expand and diversify the CLC committee and is seeking interested and open-minded individuals to participate on the community liaison committee with regard to the Township's interest in this process and the Learn More Program. This is a Committee of Council and members are appointed by Council.

As part of the expansion and diversification, the Township of Manitowadge is currently seeking 4 women to fill the current vacancies.

Members of the committee act as representatives for the citizens of Manitowadge. Interested individuals can forward their name, contact information and a letter indicating why you would like to be a member of the committee to the CAO/Clerk-Treasurer no later than Wednesday February 21, 2018 at 1:00 p.m. Application forms can be found on our website at <http://manitowadge.ca/?pgid=188> or from Reception at the Municipal Office.
